

For graphics information, see [Notes on Graphics](#) .

Most architecture diagrams are in [UML](#) , with the exception of one sequence diagram in [Sequence UML](#) and the overall architecture diagram:

We used the [PlantUML web text editor](#) for editing UML diagrams, and they are embedded in the documents using the [PlantUML chrome extension](#).

Design

- Menus were designed in google drawings (in architecture and design folder), then replaced with better graphics.
- This is also the case for the mazes, but see [Maze designs](#) for how these were designed.
